

**Ontario Lung Screening Program  
Level 1 Screening Pathway**  
Last updated: February 2021

\*Occurs if a Lung-RADS® score of 4B is assigned to a new large nodule identified on an annual recall low-dose computed tomography (CT) scan and the reporting radiologist suspects an infection or inflammation.  
Note: The categories “probably benign,” “suspicious” and “very suspicious” are based on Lung-RADS® (version 1.1).
